OUR HISTORY

Argesan Kalıp SanTic.Ltd.Şti. was established in 1990 to produce plastic injection and metal sheet mould productions. At the end of 1999 Argesan stopped to produce these productions and started to manufacture Stainless Steel Staircase Railing and Connection Accessories in Ballustrades and Handrails. In the developing process Argesan added it's product category Stainless Steel Glass Connection Accessories in accordance with market needs.

ARGESAN is a leading company and well placed in his sector both in domestic and foreign markets with the conception of high quality production, delivery on time and consecutively service and has more than 2500 kinds of product varieties which have been produced by his own moulds.

Argesan has highly experienced Project Department that can also make special productions according to the customer needs and their special demands that makes Argesan source feature in his sector.

Production in Argesan is realized by different steps with extremely careful labor. Approved customer demands are transferred to project department, design works, technical calculations and production drawings for the orders are executed by our professional project team.

Period of production: it consists of three main sections as welded production, machining and surface finishing.

The experience that Argesan gain from its activities till now is important for the development of our new products. All of our products is designed in high quality and taking care of safety, ease of application.

In the wake of being committed to new technologies and R&D activities ARGESAN made an investment of 5 +1 Axis Laser Machine and is ready to meet the demands of manufacturers who need multi axis laser cutting products.

Argesan has continuing it's productions in 7.200 m² factory area in Ankara Sincan Organize Sanayi Region.

Today, customer expectations for quality, in terms of diversity and intensive, contain alive and active features. Argesan knows that the way of meeting these expectations is only provided by following latest international developments and renewing the quality of our products constantly.

Our company aims providing customer's satisfaction, obtaining benefits for society and their own staff in long term. Argesan has adopted in principle a management style focusing on quality and based on employee participation.

The organizations willing lasting success has to create a strong culture of union. Our studies are going on in our enterprise in which such a union is created in order to improve customer satisfaction year by year.
